# Hidden Shapes

©2011 Education Inspired

For grades 3-5; Groups of 1-4

Each player take a game mat (or share with a partner if you need to) and a piece of paper. Pick up a card and read the shape aloud. Locate the shape on the game mat. On a piece of paper, write the name of the shape and the coordinates where the dot of the shape is found. Put the cards that have been read in a new pile. Take turns reading cards until all the shapes have been found.
