Pick up a card and place it face up where all students can see it. All players find the collection of coins that totals the amount on the card and mark it, but do not say the answer out loud. Put the cards used in a new pile. Take turns turning over cards until someone covers four in a row. Then the group must check the cards and the coins covered to make sure the correct coins are marked. If they are, that player wins the game.

For grades 2-4; Groups of 2-6

Place the cards in the middle of the group. Pick up a card, read the amount, and lay the card where everyone can see. All players find the collection of coins on their own papers that matches the amount on the card and mark it, but don't say the answer out loud. Put the cards used in a new pile. Take turns turning over cards until someone covers four in a row. Then the group must check the cards and the coins covered to make sure the correct coins are marked. If they are, that player wins the game.
