Reading Numbers

©2004 Education Inspired

Place the cards in the middle of the group. Pick up a card and read it out loud. All players find the matching number on their own papers and mark it. Put the cards that have been read in a new pile. Take turns reading cards until someone covers four squares in a row. Then the group must check the cards and the numbers covered to make sure the correct answers are marked. If they are, that player wins the game.
