

# I Know! Bingo!

©2011 Education Inspired

**Grades:** K-adult

**Subject:** Any Subject

**Group:** Any-Size

**Materials:** Boards for each student, square covers for each student, set of cards for each group, pencils

## Procedure:

1. Select about 20 terms to study and write them in the "Word Box" on the template.
2. On each card, write a definition or question that corresponds with a word in the word box. Make one card for each corresponding word.
3. Cut out the question cards.  
Optional – Make an answer key on the designated cards by writing a list of the card numbers and their answers.
4. Make copies of the game template with the words in the word box.
5. Put the game in a center to play. (Make sure students know how to play the game before asking them to play it independently.)

## Modifications:

**English Language Learners:** Focus on meaningful vocabulary that will affect their daily lives or their understanding of a unit being studied. Allow students to make the question cards for you by putting synonyms from their native language on the cards for them to match the English words on the board.

**Struggling Students:** Help them write the words from the word box onto the board and review their meanings while writing. For students who need additional help, allow them to work with a partner.

Write one word from the box in each square. Pick up a card and place it face up where all students can see it. All players find the answer and mark it, but do not say the answer out loud. Put the cards used in a new pile. Take turns turning over cards until someone covers four in a row. Then the group must check the cards and the answers covered to make sure the correct answers are marked. If they are, that player wins the game.

Word Box

# I Know! Bingo!

Place the cards in the middle of the group. Pick up a card and read it out loud. All players find the answer on their own papers and mark it. Put the cards that have been read in a new pile. Take turns reading cards until someone covers four squares in a row. Then the group must check the cards and the answers covered to make sure the correct answers are marked. If they are, that player wins the game.
