

# Matchin' Action

## Fact Families

Multiplication &  
Division

©EducationInspired

### How to Play

Remove the title card and directions. Shuffle the cards. Deal 5 cards to each player.

The remaining cards are placed face down to make a DRAW pile. Turn the top card over to make the DISCARD pile.

The person to the left of the dealer begins. Match the card in the DISCARD pile either by fact family or color. For example, if the first card is red with  $6 \times 2 = 12$ , a red card or a card with the same fact

family can be played. An I PICK card can be played at any time. If the player cannot match the DISCARD card, a card must be taken from the DRAW pile. If the card picked up can be played, it may be played immediately. If not, it is the next player's turn. A DRAW TWO, SKIP, or REVERSE card can be played on a matching color or action. DRAW TWO requires the next player to draw two and to miss the turn. SKIP skips

the next player's turn. REVERSE reverses the direction of play. I PICK cards can be played on any card. The player playing the card chooses the color that must be played next. The first player to get rid of all the cards in his or her hand wins the game.
