

# Memory-Tac-Toe Activities

**Application Picture:** Draw a picture of a time when remembering the verse would help you.

**Best Handwriting:** Practice writing your verse two times in great handwriting, either with print or cursive.

**Build-A-Verse:** Fold a piece of paper in half several times until you have many little boxes when you unfold it. Write one word from the verse in each box. Cut apart the boxes. Mix up the boxes and then put the verse back in order.

**Cards to Keep:** Write the verse on an index card. Keep all the cards on a ring or in a box. Review your cards when you have time.

**Color Page:** Make your own color page with the verse.

**Concept Web:** Write the verse in a circle in the middle of a page. Draw lines from the circle away to different parts of the page. At the end of each line, write or draw a time when you can apply the verse in your life.

**Concrete Poem:** Write the verse along the edge of a paper to make a border. Then write a concrete poem using key words from the verse to illustrate the meaning of the verse. (A concrete poem is when words are used instead of lines to make a picture.)

**Create Your Own:** Make up your own way to memorize the verse.

**Fantastic Fonts:** Write the verse 2 times, each time using a **different** font.

**Illustrate It:** Draw a picture that illustrates the verse.

**Make a Puzzle:** Write it on a piece of paper. Cut it out in different shapes. Put it together and read it. Then put it in a bag to take home to do again at home.

**Mark It Up:** Write the verse. Circle, highlight, mark, underline, and double underline words that are similar, different, or stand out to you.

**Motions:** Make up motions to go with the verse as you say it. Say the verse and show the motions to a friend.

**Once Upon a Phrase:** Say the first phrase of the verse over and over into a whisper phone. When you have memorized it, add the second phrase. Say both phrases over and over into the whisper phone until they are both memorized. Continue adding phrases until the entire verses is memorized.

**Picture Words:** Write the verse, but use little pictures instead of words whenever you can.

**Puppets:** Say the verse three times using puppets.

**Rainbow Verse:** Write each word in the verse with a different color. Go in the order of the rainbow (red, orange, yellow, green, blue, and purple) or make up your own colorful pattern.

**Sing a Song:** Make up your own song using the verse as the lyrics.

**Stick It:** Write the verse on 3 sticky notes to put around your house where you will see them.

**Type It:** Practice typing it with a keyboard.

**Voice Impressions:** Say the verse 3 times, each time using a different voice (like a mouse, a ringmaster, a coach, etc.)

**Wipe Away:** Write the verse on a wipe off board and read it. Erase any 2 words and say it again. Erase 2 more words and say it again. Continue erasing 2 words at a time and saying the verse until the verse is completely erased.

**Word Search:** Write the verse leaving blanks for several key words to be mystery words. Then make your own word search using the mystery words.
