How to Play:

Divide the class into two groups. Group one stands in a line, facing the facilitator, a few steps away from group two, which should also stand in a line facing the facilitator. The first two people in each line play at one time. Hold up a card designate a point on the number line.

The first person to correctly identify the number value of the designated point on the line wins the round and stays at the front of the line. The other player goes to the end of the line. Players try to stay at the front of the line as long as possible. Team points can be kept if desired.
